

**We've Discovered a Way to Make a Centuries Old Cure-All
Give Almost Twice the Nutrients –
and Actually Taste Good!**

**Can You Imagine Drinking a Single Glass of Wheatgrass
That Has the Potential to Prevent
Heart Disease, Obesity or Even Cancer?**

Are you fed up with hearing about all these different health products that claim to be the answer for everything from diabetes to tooth decay to chronic fatigue – but never actually deliver? Are you tired of spending countless dollars on various health supplements each month, and still not feeling the great energy, vitality or cure for long-standing ailments?

I can understand your frustration because I've been down that road myself. I've been in the health and beauty business for 40 years and have always been very disciplined and put my health first. But the one persistent problem I always had and could never find a cure for was acid stomach and digestion problems.

I can't tell you how many products I've tried over the years that promised to deliver great healing benefits... vitamins, proteins drinks, diet products, cleansing products - you name it. Nothing worked.

**“Something Told Me That This Was the Product I Had Been Looking For
All These Years – and Once I Tried It,
I Knew I Just Had to Share It With the World!”**

So when somebody started talking to me about wheatgrass – I laughed! And I was sceptical. Sure, everyone's heard about that green grass – it was really big in the 1960's right? How can there be any more advances in technology for wheatgrass?

But when my friend of mine - an alternative and healing medicine expert, whom I highly trust and respect - started telling me more about Easy Pha Max wheatgrass – **an award-winning product with a breakthrough discovery** that is **backed by 10 years of solid research** - a light bulb suddenly went on and everything changed. Something told me that this was the product I had been looking for all these years – and once I tried it and saw how it miraculously cured my stomach and digestion problems - I knew I just had to share it with the world!

Wheatgrass has been called “The King of Alkalinity” and the “Super Food of Life” because it is has the highest alkaline content of any food. It increases red blood cell count, oxygenates the blood and balances the PH levels, which reduces the acid and toxins in the body. Nothing else in the world has the same power and ability to do this! No wonder my stomach and digestion problems cleared up so fast!

In a Sense You Could Say We Are “Reinventing the Wheel” When It Comes to Wheatgrass

Now I'm sure you've heard of all the miraculous benefits of wheatgrass before. It's been around for centuries. It was brought to the forefront in 1931 by Dr. Charles Schnabel, a Kansas City food chemist, who discovered that by adding 1% “greens” to his chicken feed, his egg production rose from 38% to 94%! He started feeding it to his family, and claimed that none of his children ever had any serious illnesses.

Then in the 1960s, Dr Ann Wigmore an American holistic health practitioner claims to have healed herself from a terrible case of colitis by drinking wheatgrass every day.

Just One Glass of Our Tasty, Double-Active Formula Wheatgrass Gives You All The Daily Vitamins and Nutrients You Need!

In fact, you might have even tried it yourself - only to discover that despite knowing how good it is for you - frankly it tastes just awful! So you may be wondering why on earth I would be introducing you to this “miracle juice” as if it's something **new, fantastic, miraculous and improved...**Well it's because that's exactly true!

Ours Is the Only Wheatgrass That Combines the Nutrition of Both the Roots And the Leaves

No other company in the world can offer you this! Through our intensive research we have discovered that eating only the leaves of grass – not the roots - gives you just a portion of the available nutrients. It's also why it tastes so bad!

Now, wheatgrass is a natural complete food that is high in energy and rich in vitamins – **but when you are only eating the leaves, you are missing out on so much more of the available enzymes and active ingredients!** By combining the roots and the leaves, you, in a sense, **double the nutritional benefits!** And not only is it so much better for you – it actually tastes terrific!

Would You Believe That Just 4 Sachets of Wheatgrass Has the Nutritional Equivalent to 300 lbs of the Choicest Vegetables!

It seems hard to imagine, but wheatgrass actually contains vitamins in far richer amounts than any fruit or vegetable. We like to call it a “life-sustaining complete food” because it is packed with protein, complex carbohydrates, anti-oxidants, vitamin C and superoxide dismutase, which neutralizes free radicals. It also contains another powerful ingredient - chlorophyll, which is a detoxifier and supports oxygenation of cells. Wheatgrass contains 13 types of vitamins, 10 minerals, 17 amino acids, and 100 enzymes including abscisic acid, which helps fight cancer. It is even an anti-inflammatory and can be used as an antiseptic use on wounds – for you or your animals!

100% Organic!
Only the Best Quality Wheat Grains Are Selected

We use a superior, high-tech planting and growing technique that truly surpasses traditional methods. Our sophisticated system of growing is called “aeroponics”. No soil or water contaminants can touch the plant, which guarantees healthy growth, free from fungal and bacterial contaminants at all levels. The wheatgrass is then dried and shipped to you in convenient, easy-to-use foil pouches.

And Here's One Of The Best Parts - It's So Much Cheaper Than Any Other Wheatgrass Sold !

So instead of having to take a bunch of different kinds of vitamins pills ever day, you get **all the daily nutrients your body need from a recommended 2-3 sachets of tasty wheatgrass added to 8 oz of water a day**. In fact in as little as 20 minutes you will start noticing the difference in your body.

I'd love to tell you more about the seemingly “miraculous” health benefits so many people have enjoyed from drinking our **Gold-Medal winning wheatgrass**. There are too many to fit in this brief space, but here's a snapshot of just a few:

- ✓ Helps reduce fatigue
- ✓ Eliminates toxins in the blood
- ✓ Helps prevent cancer cell formation
- ✓ Assists in wound healing
- ✓ Suppresses the appetite – great for weight loss!
- ✓ Improves metabolism
- ✓ Improves digestion
- ✓ Helps with anaemia
- ✓ Helps strengthen function of the liver
- ✓ Anti-inflammatory benefits
- ✓ Rich in ascorbic acid
- ✓ May lower blood pressure
- ✓ May help cleanse the liver
- ✓ Strengthens immune system
