

Dear Sir/Madam

Thank you for the opportunity to submit my proposal for your project "Music and Sounds for 75 Second Clip".

Your request for a soft-techno clip with good beat and instrumental repeating melody is a project I can confidently put together for a cost of \$xxx.

I have most recently been contracted by OPM restaurants to compose a customized, original, down-tempo-techno CD for background music and sale. You can review clips of this CD on the samples page at www.digitalsoundmagic.com, under 'OPM - Disc' titles. This, in addition to a wide selection of customized music should give you an idea of the quality and professionalism my studio can produce.

I have been a composer, producer and designer for the past 11 years. I take an approach based on partnership and can assure you that your project will meet your deadline and exceed your expectations. My testimonials page shows great feedback from the clients I have had the pleasure of collaborating with over the years.

If selected for this project, I would like to arrange a telephone meeting where we can discuss more details of exactly what you need. After which point, I will begin your project immediately. Please feel free to call me any time at 604-537-5616, or email at info@digitalsoundmagic.com.

I look forward to speaking to you about this exciting project.

Sincerely

Richard Dolmat
